

smartmusic®

explore, discover, perform!
You supply the expertise.

SmartMusic supplies the ideal practice environment.

Your expertise and passion as an educator make music come alive for your students in the classroom. With SmartMusic interactive music software, you can extend your reach to make music come alive for your students at home, as well. SmartMusic is your partner in transforming the way students practice. With your annual subscription, you and your students have access to thousands of band, orchestra, and vocal pieces. SmartMusic provides your students with instant feedback during their practice sessions and allows you to provide them with individualized instruction—no matter how many students you have.

➤ Professional accompaniment motivates students to practice longer and more often.

Now students can practice with background accompaniment and get instant feedback about their performance. Your subscription to SmartMusic provides you with free access to the world's largest accompaniment library for students of all ages and skill levels:

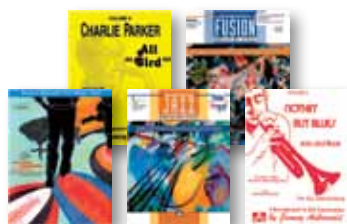

- **More than 3,000 titles** for concert band, jazz ensemble, and string and full orchestra.
- **The most popular band and string method books** for beginners through high school, as well as methods for drums and jazz ensemble.
- **More than 7,000 solos**, with a wide range from contest solos to pop and holiday titles, including popular film soundtracks like *Star Wars*, *Harry Potter*, and *The Lord of the Rings*.
- Thousands of **skill-building exercises**.
- Jazz repertoire and **innovative tools for learning** and practicing improvisation.
- And, we're releasing more music all the time.

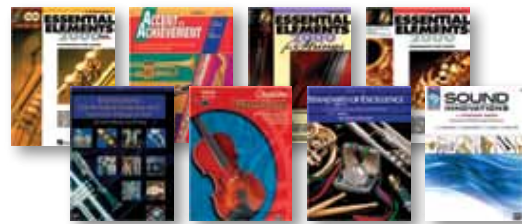

Hundreds of Concert Band, Jazz Ensemble, and String and Full Orchestra Titles, plus more each month

More than 7,000 Solo Titles

Jazz Improvisation

Most popular Method Books

"I've got kids who refuse to submit anything less than 100%. So, they keep practicing.

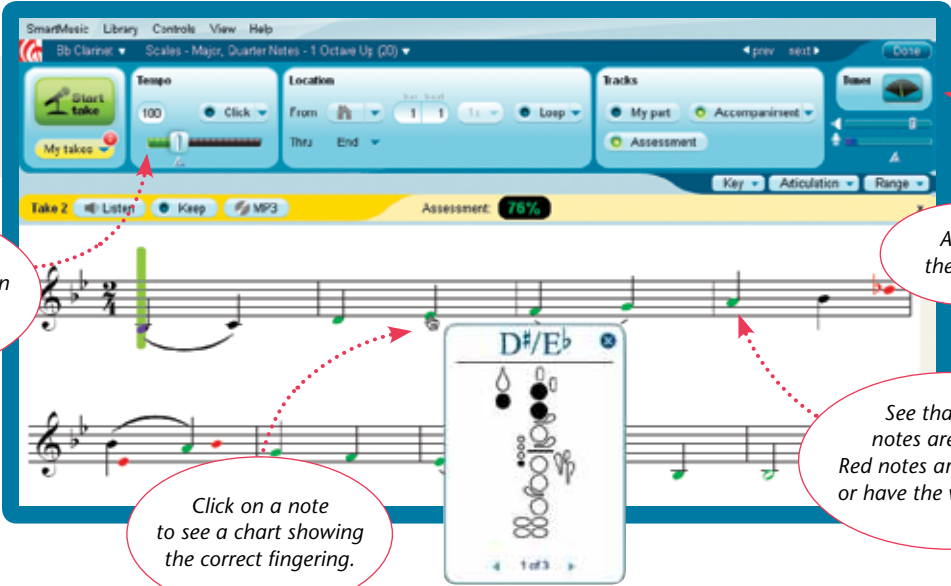

It's like Guitar Hero, but for band. We call it Band Hero!"

– Cathi Leibinger, Band Director
Ransom Everglades
Middle School, Miami, FL

➤ Instant feedback helps students improve faster.

As the music appears on the screen, students play along. Following each performance, SmartMusic provides an immediate assessment, displaying the notes that students performed correctly in green and the notes they performed incorrectly in red. In addition, students can record and listen to their performances to hear how they really sound.

Built-in tools allow students to:

Slow the tempo or repeat a difficult section to master technical challenges.

Click on a note to see a chart showing the correct fingering.

Access the tuner.

See that green notes are correct. Red notes are early, late, or have the wrong pitch.

Assessment: 78%

➤ SmartMusic helps you provide individualized instruction for each student.

With SmartMusic, you can easily:

- **Send customized assignments** and individualized messages.
- **Track, grade, and learn** more about each student's progress.
- **Build a portfolio** of each student's work.
- You can even **share portfolios and grades** during parent/teacher conferences. Think about how your students' confidence will grow as they hear their progress over time.

"This is one of the most powerful tools I use in the classroom. It is like having a teacher in every practice room and at home with the student."

– David Puckett, Band Director
Indian Springs MS, Keller, TX

➤ Students come to class ready to perform.

Because your students get instant feedback and have the opportunity to practice with a professional ensemble, they hear the style and drama of the music. They hear how their part should be performed and how it fits with the rest of the ensemble. The result? Students have a better understanding of the nuances of the music—not just the notes. And, they come to class ready to perform. Instead of drilling for accuracy, you can focus on teaching music.

smartmusic transforms the way students practice

get started with smartmusic today

“SmartMusic gives the student instant and detailed feedback.

They can see and hear how they are progressing. SmartMusic is a big help for this computer-screen generation of learners.”

– Roger Whaley, Band Director
Grandview MS, Mound, MN

“SmartMusic is an affordable technology that will drastically change how your students practice, and the skill level that they perform at will be greatly enhanced.

I highly recommend it.”

– Tom Johnston, Director of Bands
Farmington HS, Farmington, CT

“Students have become more excited about home practice

and are willing to spend more time to try to achieve “perfect” assessments.”

– John Panhorst, Band Director
Parkway Northeast MS,
St. Louis, MO
