

smartmusic®

➤ The more fun students have practicing, the more they'll practice.

➤ The more they practice, the better they'll become.

learning software for
band, orchestra, and voice

SmartMusic helps your students get more out of their practice time because they put more into it.

➤ SmartMusic offers the most extensive repertoire available.

Our full library of titles is part of your subscription and it's built right into the software. You can choose from:

- Thousands of titles for concert band, string orchestra, and jazz ensemble, complete with educator-approved assignments for all parts — and we're adding new titles every month
- Band and string method books
- Solo accompaniments that are perfect for recitals and contests
- 50,000 skill-building exercises for musicians at every level
- Jazz repertoire and innovative tools for learning and practicing improvisation

Hundreds of Concert Band, Jazz Ensemble, and String and Full Orchestra Titles, plus more each month

More than 30,000 Solo Titles

Most popular

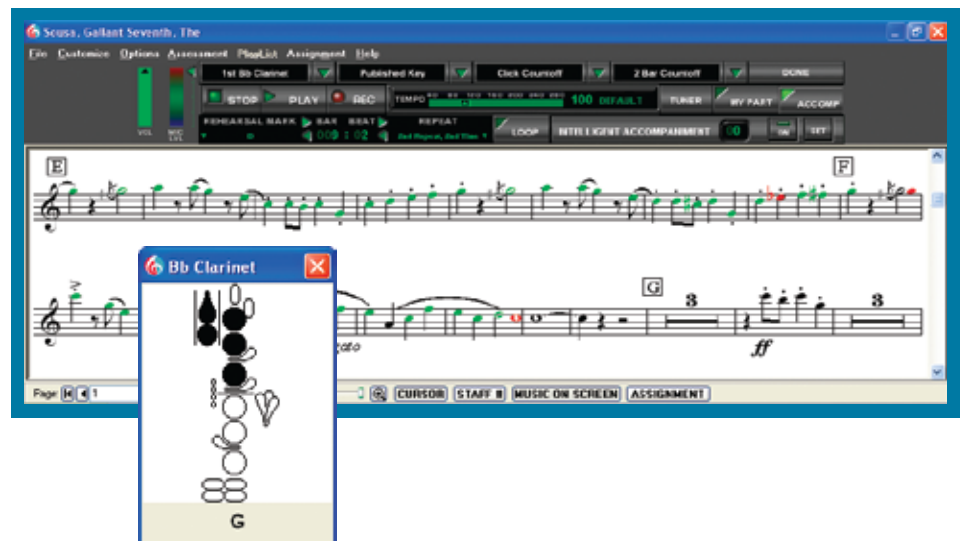

➤ SmartMusic helps students show up ready to play.

Practicing with professional accompaniment develops listening skills. When students know how their part fits with the whole ensemble, they come to rehearsals ready to play... and ready to contribute. So now your rehearsal time is about making music *together*.

➤ SmartMusic helps music come alive.

SmartMusic gives students the chance to practice along with professionally created accompaniments. That makes practicing more fun and much more engaging. Students understand how their part fits into the piece they're practicing, so they can feel like they're part of the music rather than simply playing notes.

Jazz Improvisation

Popular Method Books

➤ The Gradebook helps you create, distribute, and assess assignments.

SmartMusic Gradebook is included with your teacher subscription. It's a web-based program that lets you easily create individual assignments, e-mail them, and then check the progress of each student. In fact, you can send out pre-authored assignments to your entire class in a matter of minutes. The student even sees an on-screen performance assessment, and then you're able to listen to each student and provide feedback along with a grade.

➤ SmartMusic is the affordable way to energize your students and your music program.

Teacher subscriptions are only \$130 per year and student subscriptions are priced at \$30 each per year (plus microphone). That makes it possible for every student to be practicing consistently — and effectively — at home and see immediate results. Students without home subscriptions can complete SmartMusic assignments on school computers.

You can also take advantage of volume pricing to help as many students as possible benefit from SmartMusic. If you estimate you have more than 100 students who could use the program, you can save 15% on the teacher subscription price as well as practice room and student subscriptions, microphones, and any other SmartMusic accessories. Find out more at www.smartmusic.com/store/districtpricing.

➤ SmartMusic gives you even more ways to expand the repertoire.

You can import .MP3 files, then change the pitch and tempo, loop difficult passages, and record the student as they practice. SmartMusic also works with Finale®. It takes only a few minutes to create a SmartMusic accompaniment for the entire band, choir, or orchestra, or for solo repertoire or an instrument or vocal ensemble from a Finale file.*

**Finale 2010 is compatible with SmartMusic 2010.*

➤ Getting started is easy for you and your students.

You can purchase SmartMusic subscriptions or have parents purchase it easily through the SmartMusic website at www.smartmusic.com. And should you have questions, our website features QuickStart videos, FAQs, teacher resources, and a suite of training options.

Find out more about SmartMusic at our online Resource Center.

Our redesigned website features a Resource Center to make it even easier to get started. Everything is right at your fingertips at www.smartmusic.com/teachers/resources.aspx.

what teachers say about smartmusic:

"Students have become **more excited** about home practice, and are willing to **spend more time** to try to achieve 'perfect' assessments."

– John Panhorst, Band Director
Parkway Northeast MS, St. Louis, MO.

"SmartMusic has helped me to get the students to **take ownership** of the music they are working on."

– Bill Crabtree, Director of Bands
Copperwood Elementary School,
Glendale, AZ

"This is an affordable technology that will drastically **change how your students practice**, and the skill level that they perform at will be greatly enhanced. I highly recommend it."

– Tom Johnston, Director of Bands
Farmington HS, Farmington, CT

"SmartMusic gives the student **instant and detailed feedback**. They can see and hear how they are progressing. SmartMusic is a big help for this computer screen generation of learners."

– Roger Whaley, Band Director
Grandview MS, Mound, MN

"SmartMusic has allowed me to spend **more time teaching advanced musical concepts** and less time drilling for accuracy."

– Daniel Pendergrass, Band Director
Fairmont JH, Pasadena, TX

"This is one of the **most powerful tools** I use in the classroom. It is like having a teacher in every practice room and at home with the student."

– David Puckett, Band Director
Indian Springs MS, Keller, TX

➤ SmartMusic online videos.

Four short videos on our website show how SmartMusic helps prepare students for concerts, develop essential skills, and document the progress of every student. They also provide details on the comprehensive SmartMusic repertoire as well as tools for teachers to communicate the value of SmartMusic to parents and administrators.

Watch the videos at www.smartmusic.com. Click on "What is SmartMusic?", then click on "Videos for Students and Teachers."
