

## Three Easy Steps to Getting Started with SmartMusic®

### 1. Purchase SmartMusic online (if you haven't already)

---

- Go to [www.smartmusic.com](http://www.smartmusic.com) and click on **Order Now** in the **For Students** section.
- Select **Add to Cart** and follow the on-screen instructions to complete your order. *Indicate you are a student, and pick your school from the list.*
- SmartMusic works best with a SmartMusic microphone, so consider buying one when you order your subscription. (Built-in computer microphones are not supported in SmartMusic.)
- **If you are a new customer:** Select **Create a New Account** and enter your e-mail, password, and other information. *If your teacher has already had you enroll for class at school, log in using that e-mail address and password instead of setting up a new account when ordering.*
- **If you have purchased SmartMusic before:** Log into your account with the e-mail address and password that you used the last time you purchased and activated your subscription in SmartMusic.

*NOTE: You only need one subscription for each computer, so if your family has more than one musician in school, you're all set.*

### 2. Install SmartMusic

---

You can install SmartMusic from a disc or by downloading it.

- **New customers** – You'll receive an installation disc with your order (remove the CD from your basket only if you are downloading).
- **Returning customers** – The SmartMusic application will prompt you when an update is released.

Installing from the disc: Follow the directions on the disc system requirements card.

Installing from the Download: Download SmartMusic from the right-hand side of the home screen at [www.smartmusic.com](http://www.smartmusic.com), and follow the instructions on-screen.

### 3. Activate your Subscription

---

- After you have completed the installation, the SmartMusic application will launch and you will see a **Welcome** screen. *You must be online to activate a SmartMusic subscription.*
- Click the **Activate** button.
- Enter the e-mail address and password you created when you ordered SmartMusic, and click **Login**.
